

read\_fock\_f

```
graph LR; A[read_fock_f] --> B[m_global::alloc_fock_f]
```

A diagram showing a call from a function to a global function. On the left, a gray rectangular box contains the text 'read\_fock\_f'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'm\_global::alloc\_fock\_f'. Both boxes have a thin black border.

m\_global::alloc\_fock\_f
